

Subject: Please support HB 6840 and bike and pedestrian funding

To the Finance, Revenue & Bonding Committee:

As a member of Bike Walk Connecticut, I support the Governor's proposals to develop and fund a first-rate active transportation network of bike lanes, greenways, multiuse paths, and pedestrian infrastructure in Connecticut. There are so many reasons to support HB 6840.

- Biking and walking are cost-effective ways to reduce traffic congestion, and they're good for the environment, our health, and our economy.
- Bike lanes, sidewalks and greenways cost a fraction of what it costs to build and maintain roads. People want to bike and walk more, but many don't feel safe without bike lanes, greenways and sidewalks. Build them and people will use them.
- Since transportation is one of the biggest contributor to greenhouse gases and inactivity is one of the biggest contributors to diabetes and heart disease, active transportation must be a key piece of our climate action plan as well as our public health policy. Biking and walking are healthy, low-impact alternatives to driving for local trips.
- Connecticut's car-dependent lifestyle is not the lifestyle that millennials or the creative class have in mind. A well-designed active transportation network will help bring millennials and the creative class to Connecticut and keep them here, strengthening our economy. Additionally, walkable, bikeable places would boost tourism immeasurably, with benefits spreading throughout our economy.

For so many reasons, it's time to make Connecticut a great place to bike and walk. Please support HB 6840.

Thank you.
